Skills

- **Languages**: C++, JavaScript, Python
- **Frameworks**: ReactJS, NodeJS, HTML and CSS, Tailwind CSS
- **Tools & Platforms**: Git, GitHub, Postman
- **Core CS Fundamentals**: DBMS, OS, CN, SQL, OOPs
- **Soft Skills**: Problem Solving, Team Player, Adaptability, Quick Learner

Projects

Startup Circle - Startup Event & Networking platform | GitHub Jul' 25 - Aug' 25

- A Web-based platform that connects startup founders and investors by providing event discovery, networking features, and a fully responsive user interface.
- Structured the frontend work using HTML, CSS, Tailwind CSS, and JavaScript, which delivered a responsive layout and smooth user experience across devices.
- Oversaw backend development using PHP and MySQL, which included user authentication, event management, profile handling, and optimized database operations.

Tech: HTML, CSS, JavaScript, PHP, APIs, SQL

Electricity Bill Tracker – Monitoring & Billing Platform | GitHub Jun' 25 - Jul' 25

- A Real-time electricity bill tracker that monitors per-device power usage, delivering detailed consumption insights rather than just overall usage, developed using HTML, CSS, JavaScript, Python, and C++.
- Executed core logic work with Python and C++, where a sliding-window algorithm calculated and optimized cost across time-series energy data.
- Integrated dynamic, real-time analytics and took accountability for updates to usage and billing patterns that helped users track electricity costs per device.

Tech: HTML, CSS, JavaScript, Python, C++

Summer Training

Logic Building – Programming and Data Structures | Link Jun' 25 - Jul' 25

- Completed intensive training focused on **logic building**, **programming fundamentals**, and **Data Structures & Algorithms (DSA)**, strengthening core computer science concepts.
- Solved real-world problems using structured methodologies, **optimized coding techniques** and **algorithmic thinking**, improving analytical and technical proficiency.
- Implemented multiple mini-projects and coding exercises, enhancing **problem-solving skills**, **coding efficiency**, and hands-on experience in applying DSA concepts effectively.

Certificates

- Cloud Computing by NPTEL | Link — Nov' 25
- Training in Programming and data structures by Lovely Professional University | Link — Jul' 25
- Introduction to Hardware and Operating Systems by Coursera | Link — Sep' 24

Achievements

- Solved 90+ coding problems on LeetCode, strengthening problem-solving and improving consistency. | Link Nov' 25

Extra-curricular activities

- Participated in HackWithVertos 1.0 A 24 Hour Hackathon organized by Student Organization ECHO. | Link Feb' 24

Education

- **Lovely Professional University** — Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.32*** — *Since Aug' 23*
- **Sri Chaitanya Junior College** — Tirupati, Andhra Pradesh
  Intermediate; ***Percentage: 95.0%*** — *Apr' 21 - Mar' 23*
- **Blue Moon International School** — Anantapur, Andhra Pradesh
  Matriculation; ***Percentage: 96.0%*** — *Apr' 20 - Mar' 21*
